Nayan Chaudhary

Full-Stack Developer

Nepal, Kathmandu • +9779823416640 • nayanchy2004@gmail.com

• Github • Portfolio

Motivated Full-Stack Developer with solid expertise in Java, Spring Boot, React, and MySQL. Skilled in building secure, scalable backend APIs and responsive frontend interfaces. Passionate about writing clean code, understanding system design fundamentals. Eager to contribute to modern web application development and grow in a professional engineering environment.

EXPERIENCE

Web Development Intern at Nepal Electricity Authority (NEA) Sept 2025 – Dec 2025

- Designed and implemented modern, responsive UI components for the NEA website using **React.js**.
- Implemented frontend logic and functionality to improve performance and efficiency.
- Assisted in basic backend support, API integration, and database handling under the guidance of senior developers.
- Collaborated with experienced team members in a professional, team-oriented development environment.

EDUCATION

Bachelor of Engineering in Information Technology (BEIT) 2021 - Present

Cosmos college of management and technology, Sitapaila, Kathmandu

Higher Secondary Education

Shikshadeep Higher Secondary School, Biratnagar, Morang 2019 - 2021

PROJECTS

Community EV Station Platform :

Spring Boot • Spring Security • MySQL • React • WebSocket • JWT

- Built scalable backend using layered architecture with role-based access for Admin, Host, and User.
- Implemented JWT authentication with userId/role claims and REST APIs for booking, payments, charger management, and dashboards.
- Automated booking lifecycle (RESERVED → CONFIRMED → ACTIVE → COMPLETED) using @Scheduled tasks with real-time push notifications.
- Configured STOMP/SockJS WebSocket with JWT-authenticated channel interceptors for real-time chat; built analytics engine with Spring Cache.
- Designed dynamic charger search with JPA Specification; mock payment system and Google Maps API.

Task Manager App:

- Built a full-stack task management system using React, Spring Boot, and MySQL.
- Implemented REST APIs, database integration, and automatic overdue task tracking.

Online Voting System (Group Project):

Django • JavaScript • HTML/CSS • SQLite3

- Built responsive frontend UI and integrated Django APIs for voting and result management.
- Handled frontend logic, validation, and data rendering in collaboration with the team.

SKILLS

Java, Spring Boot, React, HTML, CSS, JavaScript, MySQL

LANGUAGE

Nepali, English, Tharu
